

MODEL RAILROAD INDUSTRY DIVISION HALL OF FAME

2010 NOMINATION FORM

The purpose of the HMA Model Railroad Division Hall of Fame is to honor an individual, past or present, who by their selfless actions and examples contributed to the advancement of model railroading. We should keep in mind that membership in the Hall of Fame is a means of honoring those whose efforts have promoted the existence of model railroading. It is not intended to merely congratulate those who are successful business people.

The nominees must meet the following criteria.

- This person must have at least 20 years of service in the model railroad industry.
- This person must have made a historical contribution to the model railroad industry (e.g. promoted public awareness of the hobby in an extraordinary manner, developed a manufacturing process that has impacted the industry, extraordinary innovation in product development or marketing, or have inspired others in the advancement of model railroading).
- This person must have an impeccable record of respect and integrity in the industry.
